OUR CODE BUILDS YOUR VISION

Codiara House (Private) Limited – Week 1 Tasks

Duration: 18 June – 24 June 2026

Deadline: 24 June 2026

Level: Beginner

Objective:

Complete a beginner-level practical task and build a small working project that will be enhanced in upcoming weeks.

1. Data Analysis:

Task:

Create a Student Performance Dashboard using sample data.

Tools & Technologies:

- Microsoft Excel / Google Sheets
- Power BI (Optional)
- CSV Dataset

How to Perform the Task:

Create a small dataset containing student information such as Name, Marks, Attendance, and Subject. Clean unnecessary data, organize it properly, and apply sorting and filtering. Create charts to visualize performance and combine them into a simple dashboard.

Deliverable:

- Dataset File
 - Dashboard Screenshots
-

2. Web Development (HTML, CSS, JavaScript)

Task:

Build a Personal Portfolio Landing Page.

Tools & Technologies:

- HTML
- CSS
- JavaScript
- VS Code

How to Perform the Task:

Create a single-page portfolio website. Design a clean interface and include sections such as Header, About, Skills, and Contact. Use CSS for styling and add a small JavaScript feature such as button interaction or smooth scrolling.

Deliverable:

- Source Code
 - Website Screenshots
-

3. MERN Stack Development (React, Node.js, Express.js, MongoDB)

Task:

Build a Simple Internship Registration Form.

Tools & Technologies:

- React
- Node.js
- Express.js
- MongoDB
- VS Code

How to Perform the Task:

Create a frontend form where users can enter their details. Connect it with a backend API and store submitted data inside MongoDB. After submission, display saved records on another section or page.

Required Fields:

- Name
- Email
- Technology

Deliverable:

- Project Source Code
- GitHub Link
- Screenshots

4. Graphic Designing

Task:

Design a Professional Internship Promotion Post.

Tools & Technologies:

- Canva / Figma
- Adobe Photoshop (Optional)

How to Perform the Task:

Create a square social media post with a professional layout. Include internship title, company name, and a modern visual style. Use proper alignment, typography, and color balance.

Deliverable:

- PNG/JPG Design File
-

5. WordPress Development

Task:

Create a Basic Business Website.

Tools & Technologies:

- WordPress
- Elementor
- Free Theme

How to Perform the Task:

Install WordPress locally or online and create a simple business website. Build Home, About, Services, and Contact pages using drag-and-drop tools. Keep the design clean and responsive.

Deliverable:

- Website Screenshots
 - Live Link (Optional)
-

6. Mobile Application Development

Task:

Build a Simple Student Information Mobile App.

Tools & Technologies:

- Flutter
- Android Studio

How to Perform the Task:

Create a mobile application with multiple screens. Start with a splash screen, then create a home screen and student details screen. Add navigation between pages and display sample information.

Deliverable:

- APK File
 - Screenshots
-

7. MEAN Stack Development (Angular, Node.js, Express.js, MongoDB)

Task:

Build a Basic User Information System.

Tools & Technologies:

- Angular
- Node.js
- Express.js
- MongoDB

How to Perform the Task:

Create an Angular interface for entering user details. Connect it with backend APIs and store records in MongoDB. Display all saved users in a simple list.

Required Fields:

- Name
- Email
- Role

Deliverable:

- Screenshots
- Live Link (Optional)

Submission Instructions

LinkedIn Submission:

1. Share your work on LinkedIn.
2. Include screenshots of your progress.
3. Briefly explain what you built and what you learned.
4. Submit your LinkedIn post link through the provided week 1 Google Form.
- 5.

Submission Guidelines

- . Use any technology of your choice.
- . Focus on quality rather than quantity.
- . Keep your work organized and professional.
- .

Submission Deadline

Submit your work before the assigned deadline. **(24 June 2026)**

Note:

This is a practical beginner-level task. In Week 2, these same projects will be improved and extended with additional features.

REGARDS
